EXPERIENCE

NEURAOAK TECHNOLOGIES PRIVATE LIMITED

Mar 2026 – Present

Jr. Applied AI Engineer

Hyderabad, India

- Built a scalable RCM platform (Next.js, Supabase, ClickHouse), cutting claim processing time by ~35%
- Leveraged SOTA LLMs, AI agents, and MCP-based workflows to automate RCM tasks, reducing manual effort by ~60%
- Integrated real-time claim processing pipelines with <2s updates; designed reusable UI components cutting billing task time by ~40%
- Applied AI-driven query optimization and Supabase RLS for full tenant isolation, improving DB performance by ~30%
- Improved billing UI/UX through AI-assisted design iteration, lowering user interactions per workflow by ~25%

Soulax

May 2025 – Feb 2026

Data Engineer Intern

- Built and optimized real-time data pipelines using Kafka and Flink
- Contributed to a large-scale Geofence project enabling high-volume location-based analytics
- Applied Redis for low-latency caching and AWS for scalable deployment

PROJECTS

Blockchain Hospital Management System

2025

- Decentralized patient data storage using Ethereum smart contracts, Solidity, React.js, Node.js, and IPFS — ensuring tamper-proof medical records

AI-Powered Quiz Generator [GitHub]

2023

- Automated quiz creation from PDFs using LangChain and vector databases; improved quiz relevance by 70%

DFinance Manager App [Live Demo]

2024

- Built EMI, SIP, Arbitrage, TDS, and FD calculators in React.js/Redux with real-time financial computations

Fitness Web Application [GitHub]

2023

- React-based fitness platform with personalized video recommendations; boosted engagement by 85% and active users by 40%

ACHIEVEMENTS & CERTIFICATIONS

- Finalist, IEEE-VIT Hackathon 2023 — Healthcare analytics innovation
- Participant, Smart India Hackathon (SIH) 2023
- Active Member, Google Developer Student Club (GDSC) VIT
- **Certifications:** Google Cloud Digital Leader | Google Cloud Computing Foundations | Power BI Virtual Case Experience
